Costs & Projects

Semester Length Assignments

Purpose of Assignment Presentation	Feedback Deadline Teacher	Students' Response Deadline	Assignment Description	Assignment Title	Issue
Increasing Care Knowledge	15 days		Preparing a Latin article in the field of nursing care in the field of endocrine lungs and presenting its summary in due course	First class assignment :	1
Clinical Application	15 days		Presenting the case of a patient with diabetes and thyroid disorders, etc. and how to provide nursing care based on evidence	Second Class Assignment t	ii

Discussion Room (Forum)

- **Discussion Room (Forum)**

Topic(s) of Discussion:

In this part of the Navid system, dear students can discuss their points or questions in this section.

Evaluation Method

1. Criteria and accurate classification of the student's final evaluation

Final exam 12 marks

Doing homework 6 marks

Regular attendance and feedback and participation in the 2-point discussion

Lesson Plan Checklist
