

Course Plan for Virtual Courses

Passive Defense in Nursing

Lesson Name: Passive Defense in Nursing **Number of theoretical units: 0.5** **Number of Practical Units: -**

- Responsibilities of the Corresponding Professor:**

Email	Contact Number	University	Group	Rank	Last Name	Name
mokhtaryaghobi@yahoo.com		Kurdistan Medical Sciences	Nursing	coach	Yaqoubi	Mukhtar

Introduction and Objectives of the Lesson

1. Lesson Introduction

General Objective:

Students' Familiarity with the Concepts and Examples of Passive Defense and Its Consequences

In this lesson, the learners will plan and train in the form of one of the nursing models in order to prevent, care, treat and rehabilitate the victims of these disasters and their families, relying on their learnings with the concept and examples of passive defense and the role of the nurse in it.

Lesson Objectives:

At the end of the course, the student should be able to:

1. Become familiar with the role and application of nursing models in the face of passive defense.
2. Familiarize himself with the weapons and biological agents used in war or terrorist attacks.
3. Explain the types of microbial agents (anthrax, botulism, plague and plague-like plague) and viral agents (chickenpox, influenza, lassa, Marburg, ebola and argentine hemorrhagic fevers used in terrorist attacks.
4. Chemical agents and their types (cyanides, neuronal, respiratory, hematopoietic and blistering) should be described and explained how to prevent and disinfect.
5. Describe the radiation and nuclear factors and how to prevent contamination and take measures during contamination
6. Describe climate interventions and the HARP phenomenon.
7. Describe how to manage chemical, nuclear, and microbial care through team collaboration.
8. Describe the role and position of the nurse in passive defense.

Teaching Resources

Pages & Chapters	Book details including title, authors, translators, publications, year and date of publication
All Topics	Books, articles, and sites related to passive defense
The first and second semesters of teaching were used in all seasons	Foundations, Principles and Methods of Passive Defense Author: Kamit Passive Defense Ministry of Education Publisher: Educational Research and Planning Organization Year of Publication: 2011 Print Time: 3
All Meetings	. http://paydarymelli.ir/
Fourth and Fifth Sessions	Identification and Countering Biological Threats for Physicians of the Passive Defense Organization Publications
Sessions 4, 5 and 6	Identification and Countering Biological Threats for Paramedics Publications of the Passive Defense Organization

☐ Slides, text files, etc.

Authors/Producers	Title/Subject	Content Type
Mukhtar Yaghoubi	Principles and Foundations of Passive Defense	Vote
Mukhtar Yaghoubi	Nature and passive defense	Slide - Audio
Mukhtar Yaghoubi	Warden's theory	Slide - Audio
Mukhtar Yaghoubi	Chemical Weapons	Slide - Audio

Authors/Producers	Title/Subject	Content Type
Mukhtar Yaghoubi	Atomic explosion	Slide - Audio
Mukhtar Yaghoubi	Bioterrorism	Slide - Audio

Costs & Projects

Semester Length Assignments

Purpose of Assignment Presentation	Feedback Deadline Teacher	Students' Response Deadline	Assignment Description	Assignment Title	Issue
Application in Clinical and Introduction to Nursing Care of Chemical Patients	15 days	15 days	Preparation of a Latin article in the field of nursing care in chemical patients, and its summary in due course.	First class assignment :	1

Improving the safety of hospital wards in a practical way	15 days	15 days	Make a list of the risks of the clinical sector where you work and provide the necessary solutions	Second Class Assignment	ii
---	---------	---------	--	-------------------------	----

Discussion Room (Forum)

- **Discussion Room (Forum)**

Topic(s) of Discussion:

In this part of the Navid system, dear students can discuss their points or questions in this section.

Evaluation Method

1. Criteria and accurate classification of the student's final evaluation

Final exam 12 marks

Doing homework 6 marks

Regular attendance and feedback and participation in the 2-point discussion

Lesson Plan Checklist

Source Title	Resource	Type of learning activity	Topic Title
Foundations, Principles and Methods of Passive Defense Author:Kamit Passive Defense Ministry of Education Publisher: Educational Research and Planning Organization Year of Publication: 2011 Printing: 3	■ Presented	Cognitive	Familiarity with passive defense and passive defense in the field of health care

Identification and Countering Biological Threats for Physicians of the Passive Defense Organization Publications http://paydarymelli.ir/ http://padafand.gtc-portal.com http://www.pdrc.ir/	■ Presented	Cognitive	Familiarity with the types of microbial and viral agents
Identification and Countering Biological Threats for Paramedics Publications of the Passive Defense Organization http://paydarymelli.ir/ http://padafand.gtc-portal.com http://www.pdrc.ir/	■ Presented	Cognitive	Familiarity with chemical agents and their types
Identification and Countering Biological Threats for Physicians of the Defense Organization Publications non-factor http://paydarymelli.ir/ http://padafand.gtc-portal.com http://www.pdrc.ir/	■ Presented	Cognitive	Familiarity with radioactive and nuclear agents and how to prevent contamination and measures during contamination
http://paydarymelli.ir/ http://padafand.gtc-portal.com http://www.pdrc.ir/	■ Presented	Cognitive	Familiarity with the HARP phenomenon and climate change
